How Am I Protected?

Your vehicle manufacturer's warranty is very comprehensive. It covers virtually every part in your vehicle and can help prevent you from paying expensive repair bills. There's only one problem – it ends. And when it does, you could be exposed to unexpected and expensive repairs. A Diamond Care Protection Plan can protect you from unforeseen (but not uncommon) repair costs when your factory warranty expires.

Guard Against the Rising Cost of Repairs

The average age of cars and light trucks currently in operation in the U.S. has increased to 12.2 years.¹ As your vehicle gets older, both the risk and cost of repairs may increase.

Our contract terms and options provide you with an unparalleled value, right now.

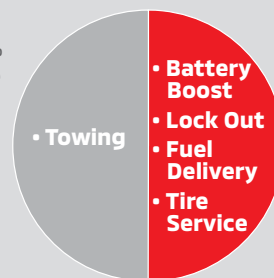

- **Choose a plan that best suits your driving needs** with up to 14 time/mileage options available
- **Payment-free service, other than your deductible** Dealers are paid directly
- **Transferable** if you sell before your coverage expires; may help enhance resale value²
- **New & Pre-Owned Vehicles** as well as non-Mitsubishi vehicles are protected by Diamond Care
